OBJECTIVE

Motivated and detail-oriented **MCA (Storage & Cloud Technology)** student with hands-on experience as a **Full Stack Developer Intern** and a strong foundation in web development, database management, and machine learning. Proficient in **HTML5, CSS3, Tailwind CSS, JavaScript, React.js, Python, Java, PHP, MySQL, and SQL**. Experienced in developing responsive web applications, integrating REST APIs, and building real-world projects using modern development practices. Passionate about problem-solving, continuous learning, and creating scalable, user-friendly software solutions. Seeking an opportunity as a **Software Developer, Frontend Developer, or Full Stack Developer** where I can apply my technical skills and contribute to innovative projects.

EDUCATION

Masters of Computer Applications (MCA- SCT)

Jain Deemed-to-be University, Bengaluru

Bachelors of Computer Applications (BCA)

Maharani Lakshmi Ammanni College For Women

INTERNSHIP EXPERIENCE

Full Stack Developer Intern

Tesseractflux Technologies, Bengaluru

June 2026 – Present

- Developed responsive web applications using **HTML, CSS, Tailwind CSS, JavaScript, and React.js**.
- Built reusable React components and integrated REST APIs.
- Collaborated on real-time projects using **Git** and **GitHub**.

Technologies: HTML, CSS, Tailwind CSS, JavaScript, React.js, Git, GitHub

SKILLS

- **Programming Languages:** Java, Python, JavaScript, SQL
- **Frontend Technologies:** HTML5, CSS3, Tailwind CSS, React.js
- **Backend Technologies:** PHP, Flask, REST APIs
- **Database:** MySQL
- **Core Concepts:** Data Structures, OOP, DBMS
- **Cloud:** AWS (S3, EC2, IAM)
- **Tools:** Git, GitHub, VS Code, Canva, Adobe Photoshop
- **Operating Systems:** Windows, Linux
- **Soft Skills:** Communication, Teamwork, Problem Solving, Time Management, Adaptability

CERTIFICATIONS & COURSES

- **Data Analytics and Visualization Job Simulation** – Forage (Accenture)
- **Full Stack Web Development** – Tech Mindsparc Innovations
- **AWS Cloud Practitioner Essentials** – AWS Skill Builder
- **Ordered Data Structures, Network Architecture** – Coursera (University of Illinois)
- **Project Management Foundations** – LinkedIn Learning
- **Cloud Architecting** -AWS Academy

PROJECTS

Multilingual Smart System for Cotton Leaf Disease Detection using Machine Learning

Technologies: Python, Machine Learning, Flask, HTML, CSS, JavaScript

- Developed a machine learning-based web application to detect cotton leaf diseases and identify disease stages from uploaded images.

- Integrated multilingual (English, Hindi, Kannada) text and voice support with disease information, symptoms, lifecycle, and pesticide recommendations.

Melanoma Stage Detection using Machine Learning

Technologies: Python, Machine Learning, Flask, HTML, CSS, JavaScript

- Built a web application to detect melanoma stages from skin lesion images using machine learning.
- Displayed predicted stage, confidence score, and treatment recommendations to support early diagnosis.

Crop Yield AI – Smart Farming Prediction System

Technologies: Python, Flask, Scikit-Learn, HTML, CSS, MySQL

- Developed an AI-based web application to predict crop yield using agricultural data.
- Implemented machine learning models and an interactive user interface for farmers.

Resume Eligibility Checker (Mini ATS)

Technologies: Java, Java Swing, MySQL

- Developed a desktop application to analyze resumes and match them with job requirements.
- Generated eligibility scores and identified missing skills based on job descriptions.

TinyTreasure – Online Gift Shop Management System

Technologies: PHP, HTML, CSS, MySQL

- Developed an online gift shop with user authentication, product management, shopping cart, and order management.
- Designed a responsive interface with database integration for seamless shopping.

Research & Publications

- Cloud-Based Food Donation System for Waste Reduction & Hunger Relief **(Ongoing)**
Designing a cloud platform for real-time food donation tracking and NGO coordination.
- Hybrid Multimodal Plagiarism Detection System **(In Progress)**
Developing an AI system integrating OCR, TF-IDF, and Sentence-BERT for detecting plagiarism in text and images.
